

INSPIRE

EDITION #25

HELMSLEY

Helmsley combines the aesthetics of concrete terrazzo with the functionality of porcelain. Offering endless designs, formats, and inspiration. The collection stands out for its use of micro-terrazzo to enhance designs that exude elegance and originality.

KAKAM 2.0 SUSTAINABILITY:

The production system and management choices adopted allow us to keep consumption of natural resources and pollution down to a minimum.

The manufacturing of the atomized paste (base) and powdered enamels (colour), is done by dry pressing without the use of water, creating a more durable quality product and avoiding the production of wastewater discharge.

The firing is done using a modern electric kiln, powered by green energy produced from renewable sources (wind turbines and solar power) by one of the group's companies, avoiding the use of fossil fuels and atmospheric emissions.

All scrap and waste are collected separately and sent for recycling.

Made within the EU
