Tactility

Technical data sheet - ISO 10545 average values

3	Water absorption	18-22%
11	Crazing resistance	No
13	Chemical resistance	GHB
14	Stain resistance	Class 5

Please note *

The special variegated glaze of these tiles are particularly acid-sensitive. Anti-limescale products should not be used for ordinary maintenance. We recommend to use a natural cleaner such as Fila Cleaner.

Do not use aggressive cleaning products such as bleach or ammonia.

Sustainability information

Cleaning and maintenance advice

Initial washing

The initial washing is fundamental for good treatment results. The initial washing is aimed at removing any laying residues and building grime.
Product: Cloth

Routine maintenance

The aim of the routine maintenance is to remove dirt and scuff marks. Must be carried out regularly.
Product: Cleaner Pro

Please see www.filasolutions.com for methods of use, dilution and coverage.
